The submitted article is (put X where applicable):

- | | | |
|--------------------------|---------------------------------------|---|
| <input type="checkbox"/> | Original research paper | It presents the findings of original research that could be of empirical, theoretical, technical or analytical nature. It includes monographies, conference articles and academic essays. |
| <input type="checkbox"/> | Review article | Review article that provides a summary of existing knowledge in a chosen field. It gives an overview and interpretation of original findings but it does not include original research. |
| <input type="checkbox"/> | Research summary | A brief (1-3 pages) academic paper presenting initial findings of empirical research of major significance, course and initial findings of original experimental research or original technical solutions. |
| <input type="checkbox"/> | Perspective or commentary | Legal article containing original research findings of analytical nature. |
| <input type="checkbox"/> | Book review | Academic paper presenting author's viewpoint or critique on the interpretation of a particular study, literary work or work of art. It is often a part of polemical discussion. |
| <input type="checkbox"/> | Case study | A case study publication analysing details of real cases. It provides opportunity to draw conclusions and discuss causes and consequences of examined subject matters. It is often used in medical or sociological research. |
| <input type="checkbox"/> | Guidelines | A publication that provides an overview, advice and recommendations regarding proceedings in chosen cases. It is often used in medical field. |
| <input type="checkbox"/> | Popular science article | Material that popularises scientific subject matters to a non-specialist audience. |
| <input type="checkbox"/> | Other of non-quoting character | Publications not aforementioned such as: erratum, biographical notes, reports, prefaces, epilogues, obituary notices, previews, announcements, letters, reviews of non-academic nature and all other articles of non-quoting character (that is by definition are not quoted by other authors, nor cross-referenced and customarily are not reviewed) |

Other of quoting character

Other, not aforementioned publications in academic journals, that can be quoted i.e.as a rule quoted in academic journals, can be referenced and reviewed.

The article contains the following: (underline the applicable):

1. Study Design
2. Data Collection
3. Statistical Analysis
4. Data Interpretation
5. Manuscript Preparation
6. Literature Search

I declare that I am familiar with a list of editors representing the Publisher and, at the moment of submission of the Article: there is no conflict of interests¹ between I and any of the editors of *Pedagogical Contexts* there is a conflict of interests between I and
